

# Novus

TOMORROW'S  
LEADERS

 **CIOB**  
THE CHARTERED INSTITUTE OF BUILDING

# A NATURAL HOME

*for the construction leaders  
of tomorrow*

# AS AN INFLUENCER IN CONSTRUCTION, HOW WILL NOVUS IMPACT ME & WHY SHOULD I PROMOTE IT?

With groups worldwide, Novus prepares young professionals to be the next generation of construction industry leaders and provides a direct link for undergraduates and graduates to Chartered membership of the CIOB.

Novus is there to help young professionals make their leap into construction and land it with style.

Novus does not only have a positive effect for the members themselves, but also for universities, employers and the industry as a whole:

- The strong support network available to Novus members as they embark into a career in construction, allows them to learn from a whole range of construction professionals, assisting them with their personal and professional development
- Holding a professional qualification is the sign of a true professional - Novus can provide your young students/employees with a structured route to Chartered Membership
- Novus provides a platform through which you can promote your company or university to potential young employees or students. Novus Groups belong to the largest Construction Management community in the world, providing you with a pool of talent at your fingertips.

## How can I get involved?

Promote Novus amongst your students and employees to encourage them to find out more and contact us to get involved. We have Novus Groups worldwide and we will happily put them in touch with their local group.

Contact us directly to discuss how you can get your university or company more involved. Perhaps you would like a talk from a Novus Group Chair, or want to invite local Novus members to attend a board meeting? **Get in touch to find out how we can help you.**
